Training Course On Research Methodology For Health Professionals

20th to 24th November, 2023

Department of Social Sciences
The National Institute of Health and Family Welfare
Munirka , New Delhi, 110067

Introduction

Scientific research plays a very important role in our efforts to maintain health and combat diseases. Research helps us create new knowledge and develop proper tools for using existing knowledge. Research also provides evidence for effective policies and decisions on health systems and development, particularly during dramatic epidemiological, demographic, and economic changes that profoundly affect health systems.

NIHFW is organizing a training programme for health professionals to enable them to plan and conduct scientific research from the formulation of problems to setting research objectives, to designing the research study, including methods of data collection, analysis as well as interpretation and dissemination of the results

General Objective

To enhance the knowledge and skills of health professionals to design and conduct research in the public health area with a systematic approach.

Specific Objectives

At the end of training , the trainees will be able to:

- To identify the priorities areas for public health research related to need and informed by evidence
- To conduct a review of the literature
- To understand the various types of research design
- To formulate the research questions, objectives, hypothesis and variables
- To describe various data collection techniques , tools and sampling methods
- To identify ethical issues involved in the implementation of research
- To analyse the findings and to prepare the research report

Course Contents

- Introduction of research methodology
- Identify and prioritize the problem for research
- Rationale of research
- Statement of problem
- Review of literature
- Research objectives, research questions, hypothesis & variables
- Research design and types
- Sampling methods
- Qualitative & quantitative data collection techniques and tools including online tools
- Data analysis and report writing
- Referencing styles including reference management software
- Ethical issues in conducting research
- Plagiarism

Methodology

- Lecture & Discussions
- Group work / Exercises/Presentation
- Interactive sessions

Nature of Participants

Officials working in public health care system, Medical Colleges and Institutes, Researchers.

Venue of training

Teaching Block, NIHFW, New Delhi

Duration and Timing of Training

Five days, offline mode, 20th to 24th November, 2023, from 9: 30 A.M to 5: 30 P.M

How to Apply

Apply through registration link

<https://forms.gle/XSvLn9KhWxhs8ciW6>

or

Application via email may be sent to course coordinator giving particulars of the candidates as: Name, e-mail address, contact number, Age, Gender , Educational Qualifications, Designation ,Name and Address of affiliated Hospital/Institution/Organization
