Post-Graduate Diploma in Public Health Management (2019-20)

*Offered by the Ministry of Health and Family Welfare,
Government of India*

Introduction

The National Institute of Health and Family Welfare (NIHFW), was established on 9th March, 1977 by the merger of two national level institutions, viz. the National Institute of Health Administration and Education (NIHAE) and the National Institute of Family Planning (NIFP). The NIHFW, an autonomous organization, under the Ministry of Health and Family Welfare, Government of India, acts as an 'apex technical institute' as well as a 'think tank' for the promotion of health and family welfare programmes in the country and addresses a wide range of issues on health and family welfare from a variety of perspectives.

The public health challenges being faced by the country calls for the development of capacity in the health systems of both the Central and State Governments by way of positioning qualified and skilled professionals who can execute and monitor national health policies and programs, supervise the public health workforce, fully assess the dimensions of public health issues and devise appropriate strategies to meet emerging challenges. The standard MBBS, MD (PSM) and DPH programs offered at medical colleges or the MBA, PG Diploma program offered at business schools do not significantly impart these managerial skills and competencies. Hence, this program is designed to impart the knowledge and skills to address and resolve key health management challenges.

Keeping this in view, the Ministry of Health and Family Welfare (MoHFW), Government of India (GoI) started the process of developing a 'One year Post Graduate Diploma in Public Health Management' for the Public Health professionals. This course is offered by 11 Institutes including All India Institute of Hygiene and Public Health (AIHH&PH), IIPH centers at Ahmedabad, Delhi, Hyderabad and Bhuvaneshwar, NIHFW - New Delhi, JIPMER – Puducherry, PGIMER – Chandigarh, MGIMS- Wardha etc. institute all over the country.

Objective

To enhance the capacity of the Public Health managerial workforce through the conduct and delivery of specially designed Post-Graduate Diploma Course in Public Health Management.

Course Duration

The program would be a regular course lasting for nine months of class room teaching and three months of project work including field study. The total duration of the course is twelve months.

Venue of the Course

The National Institute of Health and Family Welfare
Baba Gangnath Marg, Munirka,
New Delhi - 110067, India

Eligibility Criteria

Applicants should have a Graduate / Post-Graduate degree in Medicine, AYUSH, Dental, Nursing, Pharmacy, Health Sciences, Physiotherapy, Occupational Therapy, Natural/life Sciences, Management, Social Sciences, Social Work, Economics, Statistics or any equivalent qualification..

Selection Process

The selection will be made strictly on, the basis of merit. Eligible candidates would be screened, based on their application and statement of purpose by a specially constituted screening committee. Short-listed candidates would then be interviewed and the final list will be announced.

The final selection of the candidate is based on qualifications, relevant experience, statement of purpose and interview. The weightage for each component will be as follows:

S. No.	Component	Weightage
1.	Qualifications	30%
2.	Relevant experience	30%
3.	Statement of purpose	10%
4.	Interview	30%
	Total	100%

Course Focus & Teaching Methods

This programme is interdisciplinary both in its content and teaching. It utilizes a basket of teaching/learning techniques such as simulation exercises, Lecture discussion, group discussion, case studies, collaborative learning, hands-on training on computers, assignments, visits to organizations of public health interest, field work, practical and field projects. Apart from class room teaching students are actively involved in seminars, Journal clubs. Faculty with diverse backgrounds, national and international experience combined with a breadth and depth of public health experience would be engaged to impart teaching learning experiences.

Project Work

A major strength of the programme is in providing participants with the opportunities to apply learning directly in the community setting. The applied research arena serves as providing the exuberant learning exposure to actual field setting. Each participant, working under close guidance of a faculty advisor, will develop a 'Project' as part of the course work. Each student will be evaluated concurrently on the study protocol while the study is in progress and finally on the submission of project report.

Course Fee

The fee structure for PGDPHM for Self Sponsored candidates in the year 2019-2020 is as follows:

Tuition Fees	Rs. 1.25 lakhs
Boarding and lodging (optional)	Rs. 1.25 lakhs (covers accommodation and food)

Important dates

Last date of receiving nominations at NIHFV	17th June, 2019

About MoHFW, GoI

The Ministry of Health and Family Welfare (MOHFW) is an Indian government ministry responsible with health policy in India. It is also accountable for all government programs relating to family planning in India. The ministry work toward the long term **objective** of establishing a system of Universal Health Coverage (UHC) in the country. The Mission and **objectives** of Ministry of Health and Family Welfare are as follows:

MISSION.

1. Ensuring availability of quality healthcare on equitable, accessible and affordable basis across regions and communities with special focus on under-served population and marginalized groups.
2. Establishing comprehensive primary health care delivery system and well

functioning linkages with secondary and tertiary care health delivery system.

3. Reducing Infant Mortality Rate
4. Reducing the incidence of communicable diseases and putting in place a strategy to reduce the burden of non-communicable diseases.
5. Focusing on population stabilization in the country.

To achieve its mission the MOHFW has launched NRHM in 2005 and later modified into two sub mission NHM & NUHM 2017

Implementation Framework & Plan of action for NHM & NUHM

The key features in order to achieve the goals of the Mission include making the public health delivery system fully functional and accountable to the community, human resources management, community involvement, decentralization, rigorous monitoring & evaluation against standards, convergence of health and related programmes from village level upwards, innovations and flexible financing and also interventions for improving the health indicators in rural and urban areas.

The NRHM & NHM and NUHM seeks to provide accessible affordable and quality health care to the rural and urban population, especially the vulnerable sections. It also seeks to reduce the Maternal Mortality Ratio (MMR) in the country from 407 to 100 per 1,00,000 live births, Infant Mortality Rate (IMR) from 60-30 per 1000 live births, and Total Fertility Rate (TFR) from 3.0 to 2.1 within 7 year period of the mission.
