

Quarterly Progress Report of NRHM/RCH II
NIHFW
(January – March 2014)

National Institute of Health & Family Welfare (NIHFW) as the Nodal Institute for training under NRHM/RCH-II, doing the coordination and monitor of all the training under NRHM with the support of 22 Collaborating Training Institutions (CTIs) in various parts of the country.

Completed & Ongoing Activities during this quarter:

- 1. Submission of progress reports to MOHFW:** Quarterly Progress Report (QPR) for third quarter (October to December 2013) was submitted to MOHFW with State-wise, level-wise, thematic-wise and category-wise analysis of training achievement.

- 2. Monitoring Visit:**

Monitoring quality of training: Monitoring quality of training was done using structured checklists through visits to various training sites. Different trainings including Integrated EmOC training, SBA, CAC, BSU, SBA Refresher, BEmOC, IMEP, NSSK, F-IMNCI, IMNCI, Immunization, RI, IYCF, IUCD, PPIUCD, RTI/STI, ARSH, MTC, Sensitization workshop on maternal & child health action plan and SNCU Ref. for various categories of health personnel were observed in a number of States. Feedback based on those observations was sent to each State for improvement and shared with MOHFW.

During this period RCH Consultants at NIHFW visited 5 districts of 5 States/UTs to observe various types of trainings. Consultants at CTIs also undertook monitoring visits to 40 districts of 12 States. Some of the districts were visited number of times to observe different types of trainings.

Other Activities: A Consultant from RCH-II unit also attended the clinical skill standardization training under Pre-service Nursing Education project (PSE-Nsg.) for nursing & midwifery cadre held at National Nodal Centre (NNC) Vadodara.

- 3. Professional Development Course in Management, Public Health & Health Sector Reforms for DMOs:** The ten weeks Professional Development Course (PDC) for Management, Public Health & Health Sector Reforms for District Level Medical Officer is

continued at 17 institutes including NIHFW in the country. 14 officers were trained in PDC during this quarter (Jan-March 2014) at one institute.

Proposed Activities for the Next Quarter:

- **Review of State PIPs:** The training activities included in the draft SPIPs for the year 2014-17 States/UTs submitted to MOHFW would be reviewed and comments on training and training related proposals/activities would be sent to MOHFW.
- Based on the State PIPs a draft Comprehensive Training Plan in six thematic areas including Maternal health, Child Health, Family Planning, Adolescent Health, National Programmes for Control of Diseases and other programmes under NHM for each State for the year will be prepared.
- As desired by MOHFW, GOI, revision of the monitoring visit tools (checklists) is under process and the revised updated checklists will be shared with the Training Division, MOHFW and subsequently with respective Program Divisions of MOHFW, GOI.
